Meet Proud Boy Daniel Scott Lyons

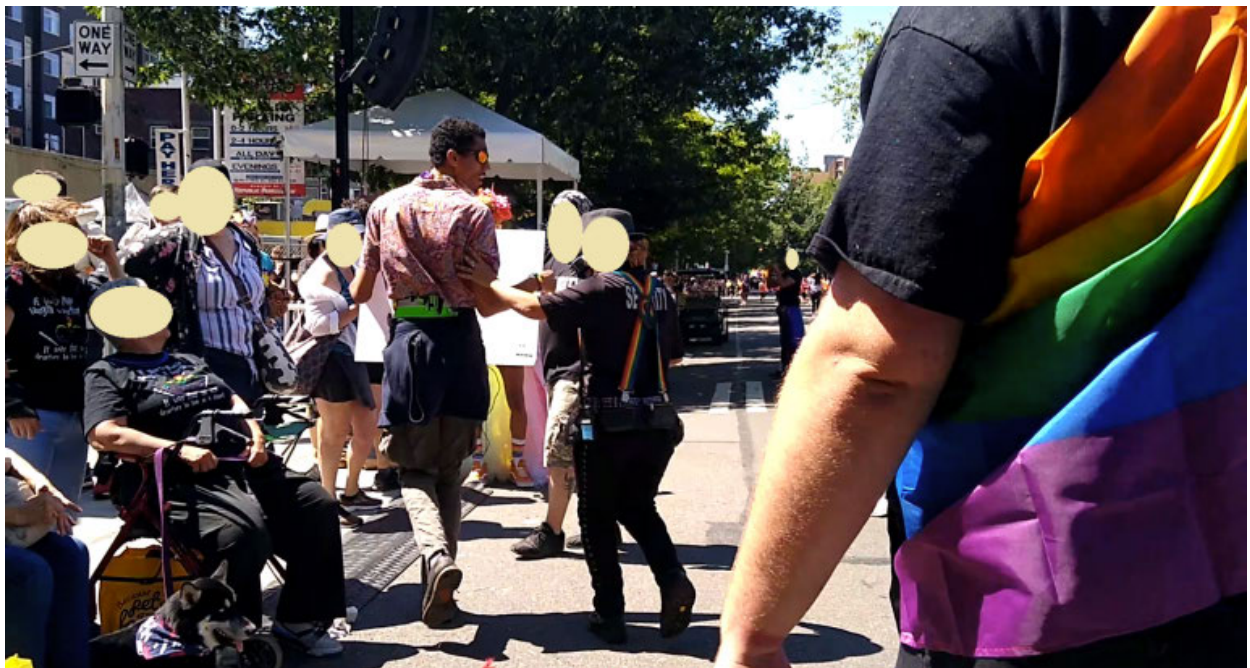

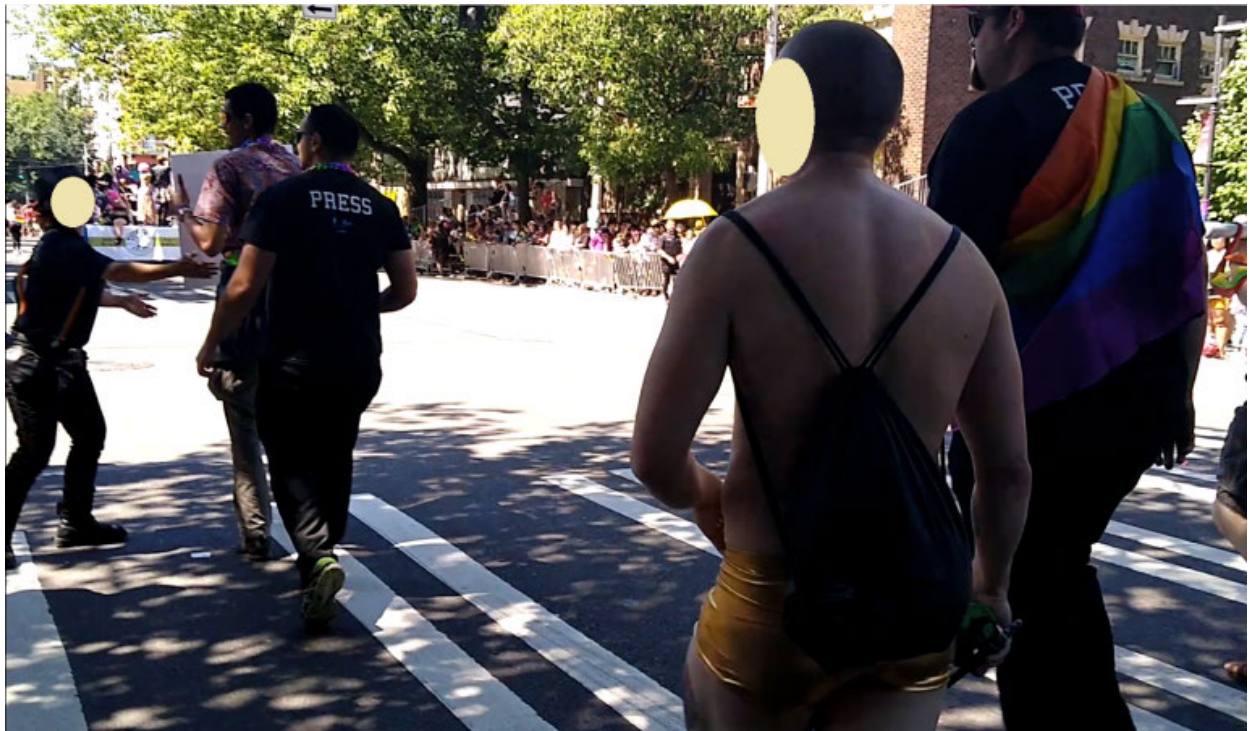

Dan was seen in June at the Fairwood Library with Proud Boys [Zac Staggs](#), [Josh Hanks](#) and [Justin Lux](#) and members of Washington 3% militia protesting an LGBT event during Pride month. Also present was National Socialist and virulent anti-semite [Sean-Michael David Scott](#) who's violent ideology was exposed by antifascists earlier in 2019.

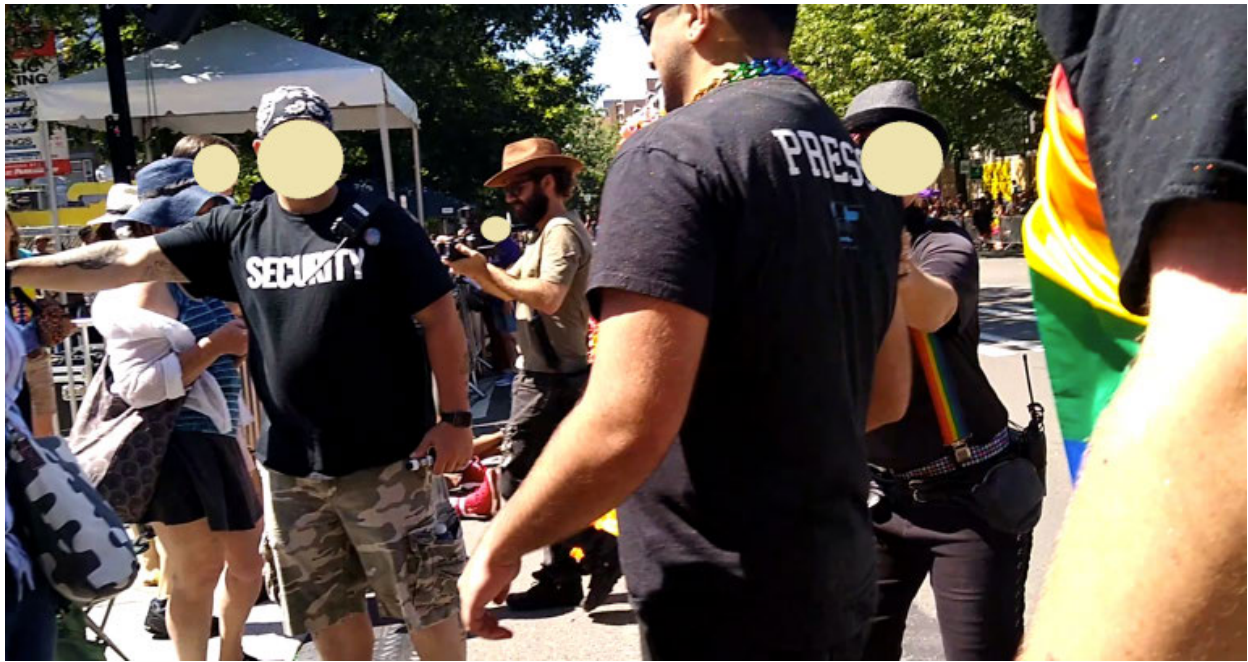

In June Dan and members of the alt-right Youtube Prank show “Colored Conservatives” formerly Operation Cold Front Saleem Juma and Dion Thompson infiltrated and interrupted the Seattle Pride Parade. The group forced their way through the steel barrier chanting “LGBTs for Trump!” before being physically removed from the parade route.

After being removed by security Dan and company were COVERED in glitter by bystanders and then tried to have antifascists arrested for “assault”.

Dan has achieved at least the 3rd degree in the Proud Boys organization as made evident by his Proud Boy tattoo. Dan posted this to his public Twitter.

Dan was featured in the Everett Herald after it was discovered that the Proud Boys were using a Lake Stevens bar for recruitment and meetings and that bar was subsequently tagged with anti-Proud boy messages. The paper found that the bar had banned the Proud Boys months earlier and Dan made the public claim they were allowed to operate there openly to punish the bar with the inevitable backlash. That coverage featured here:

LAKE STEVENS — Rumors claiming that a Lake Stevens bar has been hosting a far-right group called the Proud Boys has apparently led to vandalism, as well as the owners temporarily closing shop.

In a Facebook post, the owners of Razzals Bar & Grill, located on 4th Street NE off Highway 9, said they would be closed Friday and Saturday “in consideration of the safety of our community and employees.”

“Razzals Ownership does not condone or side with any groups or organizations that promote violence, racial or sexual bias of any kind,” the post said. “Razzals is currently and has been a ‘Family Friendly’ Sports Bar that serves the Lake Stevens Community.”

After the coverage the community was understandably outraged at hate group operating openly in their community and held a “Peace Vigil” with the mayor of Lake Stevens denouncing the group. After the vigil Dan posted this to his public Facebook page:

Sounds like from this article a small leftist group in Lake Stevens thinks they run the city and called out for acts of violence to happen to a local bar just because of being a good ol' American bar. We as western chauvinist support local companies to the best of our ability. We don't call for acts of vandalism or violence. But somehow our presence of meeting together as a Mens only club makes us a "hate group". God bless America. And God bless the ones that have hate in their hearts so that one day they will be forgiven and learn the way of righteousness to return to Heavenly Father. Amen.

Dan works at Boeing in the 777x composite wing fabrication department. He claimed to have been fired after an effort this summer by antifascist activists but sources within the company confirmed he is still employed as of the publication of this article.
