After some back and forth, we asked Danny to provide us with his personal info:

Great. Please answer the following screening questions. If that's all in order we'll bring you to one of our meetups and initiate you to your first degree. There isn't one answer we are looking for here, but more so to get a sense if who you are and where you're coming from.

1) What do you think about the United States of America?

AMERICA.

- 2) What is the biggest threat to America right now?
- 3) Who do you think is in control of America?
- 4) What do you think about the United States Constitution

We also had to start asking some personal info to make sure everyone who joins is who they say they are. This is to protect us from ANTIFA infiltrators.
