Background: What is Patriot Front?

Patriot Front was founded in the aftermath of 2017's deadly "Unite the Right" rally in Charlottesville, Virginia. James Alex Fields, the Nazi who drove his car into the crowd, killed Heather Heyer and injured dozens of others, marched at the rally with Thomas Rousseau of Vanguard America. Soon after, Rousseau formed Patriot Front as a splinter group of Vanguard America. The then-teenage founder, Thomas Rousseau, seized membership and assets of Vanguard America and rebranded his group as Patriot Front.

While the organization uses red, white, and blue patriotic imagery,

Patriot Front is unambiguously white nationalist, stating that "Nationhood cannot be bestowed upon those who are not of the founding [white] stock of our people." The organization is also fascist, an early text was titled "American Fascist Manifesto", and involves Neo-Nazis within its ranks. Since 2017, Patriot Front has also held "flash mob" events, where they are easily spotted in their "uniform" of khaki pants, polo shirts, ball caps, and white gaiter masks, while carrying American flags, smoke bombs or other props. At these events, their uniformed members will unload from the back of a rented U-Haul or Penske box truck, then briefly march along their planned route through the city, usually at night when there are few bystanders. The purpose of these marches is to generate footage for a few minutes of flashy recruitment videos for their social media channels. As well as holding flash rallies featuring masked participants, Patriot Front regularly spreads propaganda in the form of stickers, banners, and stencil graffiti. Patriot Front's goal is often intimidation–for example, when it targets synagogues with propaganda for the racist group. Following 2020's mass anti-racist protests and uprisings, Patriot Front has increasingly targeted Black Lives Matter and racial justice murals for defacement. Patriot Front does this both to threaten its perceived enemies and to build notoriety for the organization. Today, Patriot Front is one of the most active distributors of racist and antisemitic propaganda in the country, both online and via fliers, stickers, and banners. According to their own manifesto, the group does not allow women to join and is actively working to create a whites-only ethnostate.

On January 21 2022, as Patriot Front was attempting to march at the anti-abortion protest in DC, independent media outlet Unicorn Riot released 500GB of Patriot Front's unaltered internal communications. The leaks include "private, unedited videos and direct messages reveal a campaign to organize acts of racial hatred while indoctrinating teenagers into national socialism (Nazism)."

The full Patriot Front communications, photos, and videos are hosted on Unicorn Riot's website. The January 2022 leaks of Patriot Front's inner workings, white supremacist rhetoric, connections to the US military, and attempts to infiltrate mainstream conservative movements have been published widely in national media outlets [1, 2, 3, 4, 5].

Activities of Patriot Front Member "Clarke – MO" aka Nathaniel Joshua Leavitt

First, do note that once members are granted access to the Patriot Front internal communications server, they choose a false name for themselves. That name corresponds with the state they live and their title, if applicable. In Patriot Front servers, Nathaniel Leavitt is known as "Clarke MO @PF-256712". Further, the different areas where Patriot Front is active are referred to as networks. Clarke is a member of Network 13, abbreviated as NW13.

In Patriot Front's Rocketchat he mentions putting up stickers in Springfield, Missouri rather frequently[6].

What's cool is people here don't really give a shit and don't rip my stickers down in this part of town. Hopefully we can get something together to hit Springfield hard like we hit KC once I find enough spots

We also know that he has put up stickers in Ozark and Sequiota Park [7].

Nathaniel was in attendance for Patriot Front's March on December 4th at the National Mall in Washington DC because he coordinated being picked up by "Leo MO" [8]. After the march, "Mark MO" aka Ian Fletcher sends Nathaniel a photo in front of Patriot Front's then re-decorated "hate bus," which was used to transport many members from Missouri to Washington DC [9]. Nathaniel is pictured in the photo, on the right.

Compared to other photographs obtained during our open source intelligence research, we are able to positively confirm that Clarke MO is Nathaniel Leavitt of Springfield, Missouri.

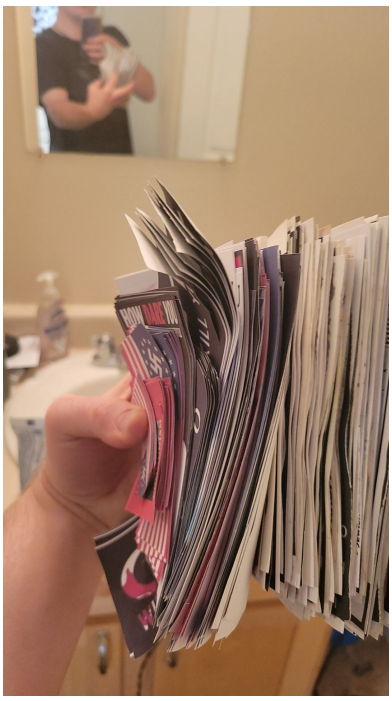
Nathaniel's sticker collection contains many hateful antisemitic and racist references, which is just a peek into the hateful personality that drove Nathaniel to join Patriot Front in the first place[10]. We won't be posting a photo of them here, but you can click on the link to view them. One of his stickers even depicts murderer Kyle Rittenhouse as a saint. Yikes.



Nathaniel Leavitt's Trace & Confirmation

Nathaniel Leavitt aka "Clarke MO" posts his address with rough coordinates in a message to "Leo MO" [11].

"Clarke MO" also posts that he crashed his car before 11/13 with "Leo MO" in the car with him [12].

I need to get me some pepper spray or something for when I'm in the bad part of town. Me and Leo found a spot to do some stenciling, but he hasnt responded in my messages for a few days so might be AWOL, but hopefully not. The nigger hasn't uploaded our sticker run from the night I wrecked my car. I'll scope out some more spots. In the meantime, you should send me what colors of paint I'm supposed to be buying and some wide nozzle tips if you know where to get them.

With a little digging, we were able to obtain crash reports from the Springfield Police Department for the week prior to this message (11/08/2021-11/02/2021) and only one crash report mentioned two male victims. Additionally, the address in the crash report mentions an address for Nathaniel – 543 E Montclair St. When we compare this

address to the coordinates mentioned earlier, we can see it is right across the street.
