Parker Dane Murphree – Identity Evropa, Texas A&M Neo-Nazi

📅 On 18 Nov, 2019 👤 By [fashfinder](#) 💬 With 0 Comments

Thanks to a tip, we were provided information regarding a Texas A&M weght fter and student who actively participated (and possibly still does) in a hate group. His name is Parker Murphree, who went by “Gerald Cunningham” in the discord server of white supremacist gang Identity Evropa that was leaked from Unicorn Riot. See his messages on the server here to understand what we are referencing: [Gerald Cunningham Discord Messages via Unicorn Riot](#)

We were hesitant at first to release this since our information wasn’t connecting, but we finally found some pictures of him on his mother’s facebook after he recently scrubbed his instagram account @parkerdmurphree. Looking at the images, the descriptions, locations, and the interests of the user “Gerald Cunningham”, we found that it matches up perfectly with Parker Murphree. That, and it was suspicious that his information was nowhere to be found, until today!

Firstly, we muddled over every single message he wrote on that server. He admits that he is in College Station, Texas, where Texas A&M is.

Iron path is useful for olympic lifters and any kind of weight training, pretty neat stuff. Free version only lets you keep 3 videos at a time, though.

Here he is on the weight lifting team at Texas A&M. We have reason to believe he still may be on this team but we are not 100%.

Here are the front-facing pictures. You can see his ear shape and size and the way they stick out are the same, and his body type is the same from the backside image from the server. You can actually even see the hair color and style are the same as we .

Now that we have confirmed his height, his images, his location, and his interests, we are going to present some images of some racist, anti-semitic, and misogynist comments without any context below:

Women don't question things the same as we do. So I can see where they never realize the atrocity they are committing.

Women follow. It's the fault of the modern man not being a coherent leader and example for their wifey.

States that women can't think for themselves and that women are followers and men are leaders. interesting he lifts right alongside women though.

So Germany has awoken? I saw that there were very popular gatherings against a citizen being killed by an immigrant.

Waking up again.

Yes, plenty of growth to be had. I still have some sort of feeling that the masses of our people have this silent sympathy with our views. It must be awoken.

"Our people" means the white race here and "our views" means white supremacy and/or nazism

I lean more to; "white displacement" and "culture disappearance". Especially for Texans, they have knowledge of what happens at our southern border.

Just think of a tight-knit, Euro-American farming community with a central town square. Just like your picturesque 1950's white community. That's what I strive for, at least.

His ideal community is a white ethnostate
