Sam Fredeen, son of a "based" retired USMC Major, at just 23 is the lead Virginia coordinator for Identity Evropa and relishes the role. Based in the

Norfolk IE cell, Sam organizes social meet ups and activism for his racist friends across southern Virginia, which includes the Richmond area.

Sam joined IE in December 2017, after dipping his toes in the cesspool of the Turning Point USA's 2017 Student Action Summit in Florida. His white upper class privileges allowed him to travel regularly to various IE actions including:

Washington, D.C. pro-boer rally for nobody

The 2018 "Leading Our People Forward" conference in Kentucky and related photo op at the Nashville Parthenon

## The "Defend the Rockies" event in Denver

A trash clean up day in Richmond, VA with other area members; an attempt to sanitize their true racist nature through civic activity.

*Sam's "good optics activism hat" he procured at a Cracker Barrel*

Sam is a BJJ (Brazilian Jiu-Jitsu) white belt with 4 stripes. He often rolls with other IE members, including TIDE, another Norfolk resident.

In the Discord server logs recently released by Unicorn Riot, Sam expressed his excitement to be around other racists at the 2019 IE conference. Sam is a chatty user, posting almost 6,000 messages across several servers. He often ranted on various topics, including deriding his classmates and professors at Old Dominion University for their race or ethnicity, complaining about group projects and readings he was assigned. He also made several comments regarding the "JQ" or "jewish question" and praising alcohol-fueled colonialism and creating genocidal ethnostates.

@JRobertson Our ancestors built this country while on a bender. I think we can figure it out.

Also we put the Native Americans on booze too. They lost the world's greatest drinking game. And they lost the world's greatest continent so hah.

Why could the US not go down to Mexico and trap these people on that bridge they were on?

**Sam Anderson** 10/25/2018, 11:36:17 AM

I mean if we can do the same thing in Afghanistan then why not Mexico?

**Sam Anderson** 10/25/2018, 11:37:03 AM

Rent some trucks to take them onto an AC130 and fly them back. God this is all so easy if we do not have to play politics

Give Cali to the Mexicans. They will be dependent on us for freshwater. Plus a massive earthquake is coming to SoCal. We do not wanna be on the hook for that. If there is gonna be any existential crisis to this nation caused by finance itl be from something like that. 20 mil people devastated by an earthquake. Gotta amputate the infected limb.

Childhood photo Sam Anderson posted in Discord. You can see his last name because it is poorly redacted. Reads "FREDEEN".
